Editorial Correspondence of the Sentine The State Fair-Fourth and Fifth Days

JANESVILLE, Oct. 2, 1867. In spite of the lowering clouds, Thursday morntrain from Milwaukee for Janesville. Our numhers increased at every station until, when we arrived at Whitewater, there was no room for more. Still people kept growding in, and when our train of eleven cars reached Janesville at 11 o'clock, there must have been full eight hundred people on board. A large delegation of Firemen were at the depot to receive and welcome Ocean Engine Co., No. 5, of Milwaukee, and soon after noon, the different fire companies began to as-Grounds. The Judges prizes, found insuperable difficulties in conducting it according to the Society's regulations .throw farthest. The rule limited each compating engine to seventy working men, but this was forgotten or disregarded, and each Engine

trial passed off pleasantly, and though I cannot say that all were satisfied, they at least took the Beloit, which stopped by mistake before playing the full time. The following shows the quantity of water which each engine put into the tank :

attracted crowds of spectators. After it was over the Fair Grounds were evacuated in a hurry. Janesville was filled to overflowing Wednesday and Thursday nights. The Hotels were fairly blockaded with people, and private hospitul-

This morning the day broke gloomily, An easterly wind and spitting rain gave promise of more unpleasant weather. But the Equestrian Display, which had been postponed from Thursday to Friday, in the hope that the weather would mend, proved sufficient attraction to draw thousands to the Fair Grounds, in spite of mud

and mist. The tair Equestrians, fifteen in number, tastefully arrayed and well mounted, were early on the ground and impatient for the coutest. About II o'clock they were marshalled in order by Col. N. W. DEAN, of Madison, who su perintended the trial, and moved round the track several times, first on a walk, then more rapidly, and finally at nearly full speed. They then rode, singly and in turn, up and down the track in front of the stand, to give the Judges ample opportunity to decide upon their relative them were well matched. So far as I heard, the award gave general satisfaction, though, as most of the fair competitors had friends and admirers on the ground, there: were necessarily dissenting opinious and some disappointments. The delivery of the Annual Address, the announcement of the different awards and a trotting-match, closed the day's

proceedings and the State Fair.

As a whole, the exhibition was the largest and finest yet seen in our State. The show of stock and horses was remarkably good; the Fine Arts exhibition varied and attractive; the different Farm products first-rate; the Farming implements admirable, and the display of Apples superior to any that I have yet seen. The attendance of people was very numerous, and but for the rain f to-day and yesterday, would have far exceeded that of any previous year. OLD ROCK was cut a all her glory. Her Farmers showed crops that could not be beaten anywhere; her Firemen carried off the silver trumpets; and her fair daughters won the prizes for the best display of horsemanship. I must mention, by the way, that Miss Constock, the winner of the first prize, and certainly as graceful, fearless and skillful a rider as I ever saw on a side-eaddle, is a Farmer's Daughter, and during the late barvest, when work was crowding and help scarce, drove a four-horse team before a reaper, day after day. Such are the men, women and crops of Rock County, the pride and glory of Wisconsin. But I must reserve what else I may have to

ay, on this topic, for another day.

NEW YORK FINANCES .- The Tribune of the The Weekly Bank Statement shows that the contraction of loans, which has been going on since the second week of August, still continues, although with much less violence than when the movement commonced. The contraction during the week is \$986,000, but adding the loans of the Island City (suspended), from which there was no report to-day, the actual contraction is only \$612,000. The specie reserve is quite as large as was anticipated, in view of the considerable aggregate amount which has been sent in small sums to aid the interior banks to sustain assetie payments. Philadelphia and Boston have specie payments. Philadelphia and Boston have both drawn largely from us, and the figures show that this drain has been met by the receipts from the interior, and the disbursements of the Sub-

Treasury.

The contraction of loans is now about thirteen can Assembly District Convention, consisting of and a half millions from the highest point of ex-

The strength of our mercantile community has been sorely tried in that period, and the wonder is that such an amount of loans could be liquidated in such a short time without still more nu-

merous failures.

Many st cks which it was supposed had touched bottom, found a still lower deep, and either the fears or the necessities of holders forced them to accept almost any bid that was made. Intrinsic value appears to be no longer an element in the price of stocks, and the market is as near chaos as possible.

Special Despatch to the N. Y. Tribude.

Washington, Sopt. 29.

The punic among the office holders here is almost as severe as that among the banks. Numerous dismissals are expected to-morrow. The rule has been adopted of retaining only two persons of the same family in office. This will be a severe blow to the F. F. V.'s, who like to have family parties around the leaves and fishes.

Nonce Act of an Engineer.—On Wednes-day man, as the train on the La trosse Railroad was coming east, and when about a mile case of Cambria, the Engineer saw a little boy about five years old on the track. He immediately whistled yeans old on the track. He immediately whichos to "brake," and reversed the engine, but as it was on a down grade, he soon found he could not stop the train, which, when the child was first seen, was under full motion. The engineer stationed himself on the forepart of the locomotive and watched his chance, jumped shead of the engine, snatching the boy from the track and thus saved his life. The train passed on some distance before it stopped. The name of the Engineer is L. T. Meade, who deserves unqualited passe for his noble act. There are few men fied praise for his noble act. DECISION OF THE SUPREME COURT.—It appears that the Supreme Court did not make a decision in the County Division question. It is understood that the court merely decided that the area of Dodgo Co., previous to the division, was purely a question of fact and not of law, and the constitutionality as preparativation of the constitution of question of fact and not of the same unconstitutionality of the net under consideration turned wholly and entirely or deer consideration turned wholly and entirely or the consideration turned wholly and entirely or the consideration turned wholly and or the constitution of the constitu the consideration turned wholly and entirely on the point whether that county did or did not contain over nine hundred square miles when the law was possed. On this point, the court held, that proof was necessary to show that the constitutional area was exceeded by the original limits of Dodge county. It is therefore an open question, awaiting such evidence as may be produced to prove that Dodge county originally exceeded the constitutional limit.—Watertown Uhronicle.

The State Fair -- Continued. A few words in relation to the Sheep, Swit

nd Fowls, and we turn to the Hall of Fine Arts. We think the show of sheep was in number bout the same as last year, but the difficulty herototore alluded to, the want of class tickets attached to the pons, met us again here, and we 32 of pears. could not find the description or owner of many animals. Thene were a tew good Leicesters, but the large majority were Spanish and French Merinoes and their classes; and we believe, from observation and conversation with the farmers, that the Spanish are decidedly outgrowing the French in lavor. We are not familiar with the elements of the controversy which the admirers of the two kinds of sheep have carried on with some degree of warmth, but the feeling among the groups of fa-mers among whom we chance bat day, was decidedly Spanish.

In Swine, the show was meagre-only some saifa dozen pens, and the Leicesters and Suftolks the only kinds. J. A. CARPENTER, of Wankesha, had a sow and seven six weeks Leicester pigs, which were very large of their age, and attricted much admiration among the stock fanciers. A. C. Dougnas had also a fine litter o Loicesters. S. Rust. , of Beloit, had some andsome Suffolks.

The poultry coops were not well filled, but gave the people a view of several of the favorte and lancy varieties, as the Cochin Chinas, the Shanghais, the Hamburgs, and the Bramapootras. Suinca Hens and Ducks made up the assortment.

FINE ARTS HALL,

We have already noticed this building, which s" a permanent structure, and creditable to the architect, though we think that an octagon shape would have given much more room at the same cost as that adopted—the cross. It was also too small for its purpose, and was uncomfortably crowded with visitors before Wednesday noon. Entering by the north door, the first noticeable display was a case of splendid Furs, by MERWIS, the leading Janesville hatter. They were very andsome, but unfortunately placed in a poor light to do them instice.

Paper Hangings, - McGrath & Co., of 21 Wisconsin street, were on hand with a fine assortment of their paper hangings, and specimens of panel and ornamental work. They were cramped for space, and could not do justice to the excellence of their work.

Specimens of Penmanship-Bome very poor, nd some beautifully executed, were to be seen. A lot by Spencer, of -, were much admir-

Ornamental Gluss Work .- Several specimens of stained and cut glass, exhibited by W. Gri-HING, of this city, showed the thorough artist, and his articles are appropriately placed in a Hall of Fine Arts. The same exhibitor had several specimens of vases made by the new process some fine Grecian Paintings; one of the latter, a Madona and Child, which, though there was no card upon it, we presumed to belong to the same collection, was really beautiful.

Embroideries, de.-In this department the show was very fair, and exhibited a great deal of industry, and some fine taste on the part of the ladies. Miss A. Ruose and Mrs. M. Smith, of Jamesville, and Mrs. Hondbon, of Beloit, had the best display. The Bed Quilts seemed, when we were present, to be quite disgusted at the array of pretty, but sometimes useless things, around them, and had not been untolded. We could not learn whether there were any which contained more than 4,000,000 pieces, and hope, for the credit of the sex, that there were not. Jewelry, Silver and Flated Ware. du-In

this department, Messrs. Marson, Looms & Hors, of this city, made a magnificent show. Prominest among their collection were the elegant Trumpets procured for the Firemen's Tournament, and a richly chazed colid silver Tea Set, but their show-case contained a selection from their stock, sufficient to stock a good country village store, and arranged with excellent taste. C. Spalding, a Janesville | jeweller, exhibited in his case, several of the beautiful prizes prepared for the Lady Equestrians.

The sole representative of the art renovative and restorative, though scarcely up to the mark of "fine arts"-the tailor's art-was W. Addy, of Janesville, who had a case of fancy yests. A. A. FISHER, of Janesville, a good sample of

Millinery-Why it is we do not know, but the Janesville ladies seem to have a peculiarly fine taste for millinery. Janesville is somewhat of a ranted. We have not thought it worth while to self to be outdone by any other lady in her combination of wire, ganze, artificials, lace, and feathers. Hence it was that Mrs. O'Dra and Mrs. Andrews-or Madame Andrawa and Mr. O'Dan, made such a gorgeous display of goods -such "lovesof bonnets," and Miss Fullen, an elegant show of artificial flowers.

Hair Work-J. H. Linck, of this city, had a large and skillfully wrought collection of ornaents in heir, and there were two other cases one of them without a card, and the other illegible. The one without a card was a handsome

Shells and Shell Work-A variety of those beautiful treasures delivered up by the deep, the sea-shells, were on exhibition, and some two or three specimens of shell-work, one of them made from shells picked up in Madison. Mr. J. L. VAUGUS exhibited a variety of pearl ornaments, nade from the inside of the muscle shells found in Rock River.

Engraving-N. D. DEARBORR, of our city, had several cases of specimens of his handiwork in card and plate engraving. We have never seen his work surpassed, and do not think it can be easily done. He is a great acquisition to our

W. N. Ginn, of - shewed a large specimen of chased work ou brass plate, very skilfully done.

Paintings-Save a few fine English paintings not exhibited for premiums, there was nothing of any great account in the Hall, and there were some very poor ones.

The artists who deal in supshine and light made a good display. In Photographs, Fownes & Hoan, of Milwankee, took the lead. In their collection, we noticed several copies of old and fading dagnerrotypes, restored to clearness and enlargen. Thompson & Tion, or Janesville, had a large collection of photographs and ambrotypes, some of them quite superior. JOHNSON, of Madison, had the best display of ambrotypes, and some few fine colored photographs. D. F. Brandon, of Beloit, had some excellent daguerrotypes-after all, the best picture for a display of the artists skill. Mr. E. W. CARRES-we presume from Whitewater, from the epeaking likeness of our friend Rulus Cheney-had a fair display. D. Johnston, of Wankeshe, had, in his

olieution several good pictures. We missed from the Hall the exquisite Halloypes of our friend H. S. Brown, which we had

loped to see there. In Printing, the only exhibitors were Halk t Co., of the Beloit Herald, who had very creditable specimens on hand.

We come next to-

In Flowers, our Janesville friends did not, as re did not just year, do justice to the occasion, but exhibitors from abroad fully made up for the local failure. P. R. SPALDING, of the Beloit Nur sery, had 100 nomed varieties Dahlias, making a orgeous display of that imperial flower. Mr. HANFORD, of Waukesha, had a beautiful display for idling away time, called Potichomanie, and of flowers of various kinds, as also did Mrs. Sta-BIN, of Whitewater.

the Democratic Know Nothings, is gratifying to the old German patriots, and those who sympathize with them. The N. Y. Zeitung, an able German paper in that city, says: Among the Republican nominations of Wis-cousin, we notice that of Mr. Carl Schurz, who has been presented to the people as a candidate for the office of Lt. Governor. It can but create

general satisfaction to see that man, who has been lately lost eight of by many, promoted to so one nately lost ught of by many, promoted to be noncorable a position.

The German nation, and the whole civilized would have very seldom been thrown into so joy-

The prudence, boldness, perseverance, and devotion, which Mr. S. displayed in this act form a brilliant chapter in the history of Germany. Though proscribed himself, and in perpetual danger, he stayed several months in the midst of his persecutors, in Berlin and Spandau, until he succeeded in rescuing from the grasp of vindictive tyranoy its victim. How deep he burt the despotie heart of the King of Prussia is still unagent from the

These bears, along with four others, were in a thicket of vines and brust, some three miles from his house; and at the time he shot the large one, it was within ten feet of him, and standing looking him in the face. He immediately discharged both barrels of he rifle; the bear then rushed at him; he sprang one side, and the bear being blinded, passed a little boy ond him, and fell dead. Mr. Cook's son, a little boy of the reason hand the hear camping towards. of ten years, heard the bear coming towards where he was standing, which was some distance from his father, and at once laid his little gua against a small contantwood tree, but as he was climbing up, a branch broke and he fell to the ground, and the noise frightened the bear so that the contact her distance when distance was the standard and the contact had been so that

t took another direction, and thereby met its death.

Mr. Cook also says that a hunting party of Chippewa Indians visited that place the day following, and a two of the party wandered away from the rest, they came into this thicket, and soon encountered a large bear. One of the Indians diacharged both barrels of his gun, but the shot did not have much effect;—and as the bear came forward to attack him, he unpinned his blanket towards the bear with his left hand, and as the bear came up to "hug" it, the Indian drove his hunting knife into its heart. The other Indian came forward while the bear was other Indian came forward while the boar was "parrying," but never even attempted to assist his companion, but looked carelessly on. To have offered assistance would have been considered an insult on the part of the Indian áttacl ed by the bear, as the idea entertained by thes "braves" is, that only those who can overcome a bear in single combat, are entitled to be classed among the "brave" bunters, so that the Indian would prefer death to having it said he could not dispatch a bear without another's aid.
The Indians mentioned above, killed either three or four elk in the vicinity of Elk Creek,

which is only twenty-four miles from this place.— Fountain City, Buffalo Co. Beacen. The Ozaukee Democrat, a Gross organ peaks of Mr. Huchschmann as the "Dutch Dog speaks of an Hoosenmann as the "Dutch Doc-tor." The compliment will be appreciated by his German friends, no doubt, as it certainly will be by the American admirers of that gentleman. The "Dutch doctor" has to day more friends in the Democratic runks than Barstow, Cross, or any other one of the Forty. He is an honest man, and because of his honesty he is subjected to the epithets of those who cannot but would con-trol his conduct in the present campaign.—Mad-

on Patriot. The Supreme Court of the Eighth Judicial District, New York, have rendered a decision in an action brought by Dr. John D. Hill against the Eric Courty Medical Society, to compel it to restore him to the enjoyment of his privileges as a superscript of the contract from which had been as cutors, in Berlin and Spandau, until he succeeded in rescuing from the grasp of vindictive tyranny its victim. How deep he burt the despotic heart of the King of Prussia is still apparent from the words that escape him occesionally, and from the acts of that individual.

However, different the content of the society from which he had been expelled because of an illegal infraction of the tariff of prices adopted by the society. That infraction consisted, as was olaimed by the defendant, in taking the office of physician to the almshouse of Eric county for a less sum than the minimum price fixed by the tariff. The following as acts of that individual.

However different the opinions people may entertain about Kinkel's revolutionary activity, his efficiency as an agitator and as a revolutionary leader nobody deutes, that he is an amiable, a policy and the law.

4 The disfranchisement of the court of t the relator was unsuthorized and illegal.
